

Enter game name and author

Enter the questions. Important: you must have at least 15 questions!

If you want to delete a question, click on the bin.

Save the file. This will allow you to edit the file later if necessary.  
Then click on **Generate game**.

### Game details

Please check the game details - this will appear when you game loads:

Game title:

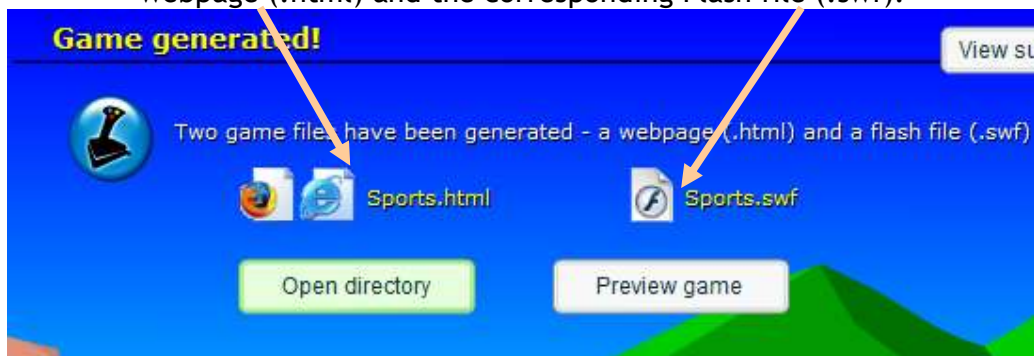

Creator name(s):

Number of questions: **15**

URL for quit button:

\* Link for 'quit' button from 'game complete' page.  
Add a link to the page you want users to go to!

Finally, the program creates a webpage (.html) and the corresponding Flash file (.swf).

“Digiteachers - EFL teachers using ICT in the classroom”  
TESOLCHILE International Conference, September 2008

At this point you may want to try the file. If so, click on **Open directory** and then click on the html file (webpage). If you need to edit some questions, click on **Review questions**.

**That’s all!**

If you want to use the activities in other computers, you just have to copy both files.

If you want to edit an existing file, open the program and click on **Load an existing game**.

If you have a website, you can also embed the activity on a webpage. You must generate the webpage code, copy it, upload the Flash file (.swf) and paste the code on the webpage.
